

MIDLAND BT SKI BLUETOOTH® STEREO HEADSET INTERCOM COMMUNICATION SYSTEM

Midland BTKI is the **wireless Intercom system** designed for leisure users who want to practice winter sports without giving up the comfort of Bluetooth communications.

Midland BTKI is provided with a **stereo headset** that allows you to make and receive calls, listen to music and talk to your friends, thanks to the Intercom feature, up to a maximum distance of 200mt.

Midland BTKI can be worn without helmet or with semi-rigid ski helmets. Easy to install, Midland BTKI is composed by two ultra-flat stereo speakers and one microphone with boom, all assembled into a headset.

Midland BT SKI is fitted with a plug that enables it to be wired to an iPod/MP3 player and/or to PMR446 transceivers allowing communications amongst various users.

DUAL USE:
WITH/WITHOUT HELMET

WATERPROOF STEREO

From the ski run to the road
